4 Time Group Package Total		

Instructions: Please check one of following boxes that best describes your child's abilities.

Beginner – Lesson

The beginner ski/board lesson is designed for an individual that has never skied/boarded before. We will introduce the equipment (boots, bindings, skis/board), then practice movement in boots and equipment on a flat surface. We will start by safely skiing/boarding down a small slope, turning in both directions and coming to a full stop. We will introduce safe and proper use of the handle tow rope and teach basic techniques. At the end of the 4th and final week, the goal of the beginner lesson is for the student to be able to ski/board safely and in control, making basic turns from the top of the beginner hill, coming to a complete stop.

Beyond the Basics – Lesson

Beyond the Basics lesson is designed for individuals who have taken beginner lessons. This is not an intermediate lesson. We will begin the lesson on the beginner hill to determine the ability of each individual skier/boarder. Students will be paired with other skiers/boarders with equal ability. We will introduce safe and proper use of the chair lift. We will practice linking turns on green runs, coming to a complete stop. At the end of the 4th and final week, the goal of the Beyond Beginner lessons is for the student to be able to safely ride the chairlift, ski/board in control, practicing parallel turns and controlled stopping on a blue run.

Intermediate/Advanced Lessons - Little Switzerland does not offer group intermediate/advanced lessons in skiing through our 4 Time School Programs. Please contact ski school at (262)297-9621 for private lessons. Limited private lessons times maybe available during your group outing but are not guaranteed. All private lessons must be prescheduled.
